苏州汉森电梯有限公司是一家引进英国汉森电梯公司品牌和技术、集产品设计、销售、生产、服务为一体的高新技术企业，公司坚持在引进中创新，不断提升产品品质，为客户提供可信赖的电梯系列产品。

汉森电梯以市场为导向、人才为基础、品质为根本、创新为动力、服务为保证，始终贯彻以客户为中心的经营理念，建立和完善以销售、安装、维保“三位一体”的营销和服务体系。

汉森电梯面向全球高端电梯市场，实现产品研发和企业管理与国际接轨，为全球客户提供个性化产品和技术方案，生产节能、环保、优质的电梯产品，提供完善的用户服务。

HANSON LIFT (SUZHOU) CO., LTD. introduces the famous brand and high technology from HANSON LIFT (UK) CO., LTD. It is a high and new tech enterprise that integrates the product design, sales, manufacture and service into one. It persists in innovating upon the introduction. It keeps enhancing the product quality. It provides broad customers with the trustworthy elevator serial goods.

HANSON LIFT is guided by the market requirements. It is based upon the talented persons and superior quality. It is motivated by innovation and guaranteed by excellent services. It always executes the managing ideas that are centred by the clients' needs. It establishes and perfects the marketing and service system that integrate the sales, installation, repair and maintenance into one.

Facing the globally high-end elevator markets, the product R & D, business management keep in pace with the advanced international standard. It supplies individual products and technical plans for extensive global clients. It manufactures the superior energy-saving and environment-protection products. It also offers the perfect user services.

## 关于汉森

### About HANSON

# 定义未来别墅生活

Define the future of villa life

一切以舒适为前提定制的别墅电梯不仅方便家人出行,更传达出对生活的热情和态度。汉森别墅电梯倡导高效舒适的生活方式,采用个性化设计、高品质标准定制,将电梯与家居环境自然地结合在一起,创造多元家居体验,重新定义未来别墅生活,让家人随心乘行,时刻感受自由与舒适。

The customized villa elevator with the premise of comfort should not only be convenient for the family, but also convey the enthusiasm and attitude to life. Hanson's villa elevator advocates an efficient and comfortable lifestyle. The characteristic design and high-quality customization naturally combine with the elevator and home environment to create a diversified home experience. There is a new definition on the villa life in the future: family members can walk up and down easier, feel freedom and comfort at any time.

# 私人订制, 为家而生

Private customization, born for home

## 专属定制

根据您的别墅建筑结构、家居装修风格和家人的乘坐需求专属定制, 无论您的建筑是否预留井道, 均能为您定制专属的电梯方案, 从功能配置到装潢风格, 满足您和家人的乘行需求。

## Exclusive customization

There is exclusive customization according to the construction structure of your villa, housing decoration style and the elevator needs of family members. We can customize an exclusive elevator scheme for your villa no matter whether your building has a reserved shaft or not. From functional configuration to decoration style, we will satisfy you and your family's need.

## 为家人设计

汉森别墅电梯可根据您家庭成员的不同, 在基础功能之上, 定制特殊电梯功能和配件, 为老人、儿童提供人性化关怀, 让电梯真正为家人舒适生活而生。

## Design for your families

HANSON's villa elevator could customize some special functions and parts besides the basic function according to your different families, so as to provide humanized caring for the seniors and kids. We try to make elevator be born for the comfortable life of your families.

# 高端品质, 品味优雅

High-end quality, elegant taste

## 严苛选材

整体轿厢以家庭装修的超高要求严苛选材, 所有材质均经过多重安全检测和可靠性认证, 用料环保、品质保证。钢丝绳采用德国进口全钢芯钢丝绳, 具备商用电梯相当的安全系数。

## Strict selection of materials

The overall elevator car is selected with the materials according to the super high requirement of housing decoration standards, all materials have passed multiple safety testing and reliability certification. The materials are environmental-friendly with a quality guaranty. The wire rope is adopted with all-steel core wire rope imported from Germany, so it is equipped with the equivalent safety factor of commercial elevator.

## 精密工艺

专业化的精密制造工艺, 让品质感深入电梯的每一个细节, 打造精心考究的高端品质, 为您呈现精致、高雅的家。

## Precise process

A professional precise manufacturing process introduces the sense of quality to each detail of the elevator, so as to build up an exquisite high-end quality to present a delicate and elegant home for you.

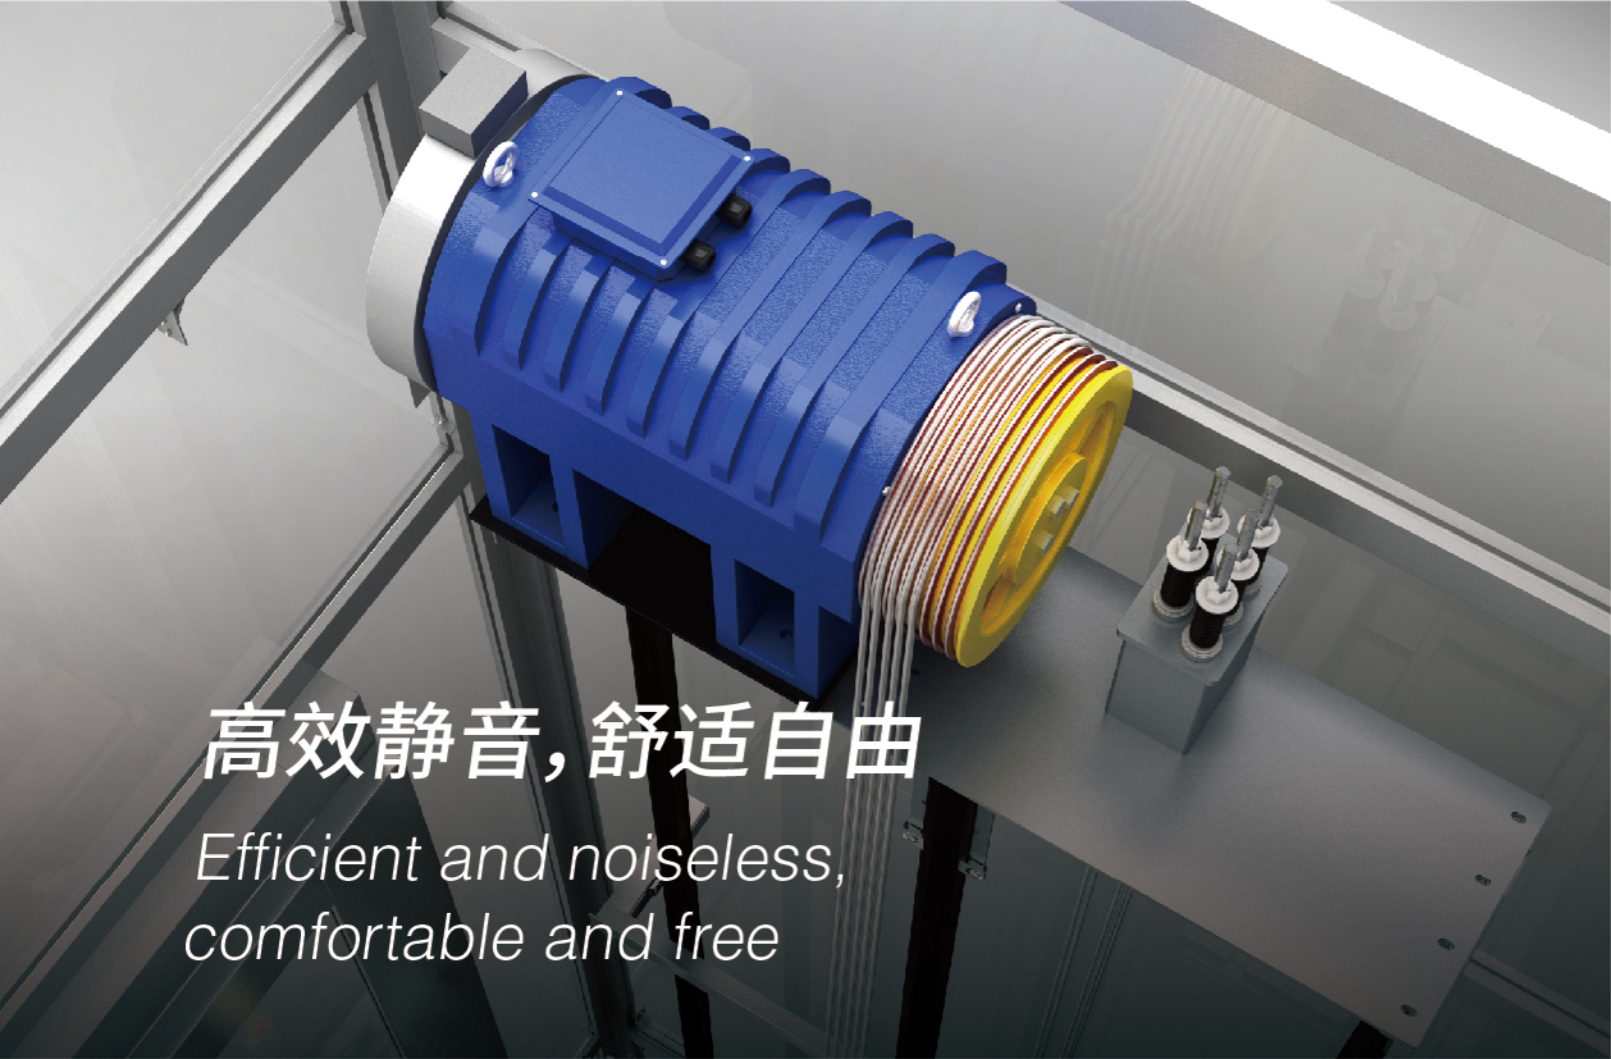

## 全程品控

秉承一贯的卓越品质理念, 汉森对每台家用电梯进行全生命周期品质把控, 从设计之初到制造安装, 每个环节均有严格的产品管理流程, 确保品质优良。

## Full quality control

With the persistence of excellent quality ideas, HANSON has a life-cycle quality control for each home elevator. From the beginning of design to the manufacturing and installation, there is a strict quality management process for each part to ensure good quality.

## 高效静音, 舒适自由

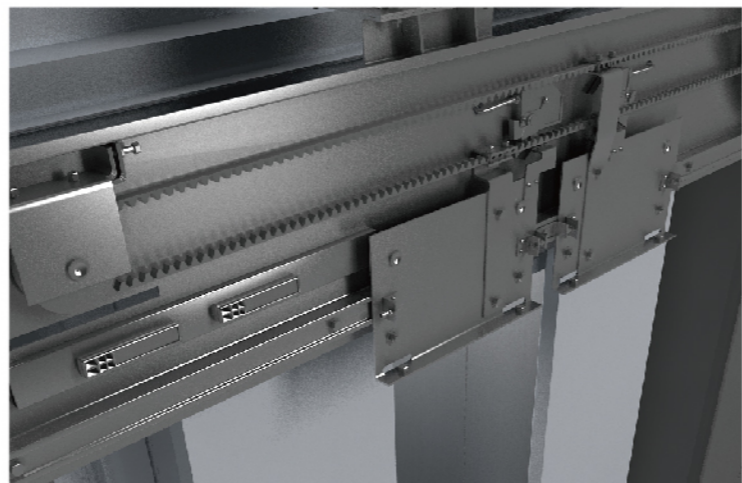

Efficient and noiseless,  
comfortable and free

### 永磁曳引机

家用梯专用曳引主机, 体积小, 传动效率高, 且能耗低, 噪音更小, 运行音量<50DB(A)。卓越的驱动技术, 是电梯启停平滑, 运行过程舒适平稳。

### Permanent magnet traction machine

The traction machine exclusive for the home elevator is in small size and high transmission efficiency with low consumption and smaller noise. The running volume is less than 50DB (A). The excellent driving technology ensures the smooth start and stop of the elevator and the whole running process of comfortable and stable.

### 一体式控制柜

通过TUV认证的SIL等级无接触器控制技术, 控制柜运行噪音小于45分贝, 电梯控制盒驱动控制同时具有保护功能, 使电梯具备超高的可靠性与稳定性。

### Integrated control cabinet

SIL level contactless control technology passing the TUV authentication, the running noise of the control cabinet is lower than 45DB. The elevator control box also has a protection function, which makes the elevator ultra-high reliability and stability.

### 变频门机

采用VVVF变频门机系统, 重量轻且结构紧凑, 使门驱动系统更平稳高效的运行, 节能的同时降低故障率。

### Variable frequency door-motor

It is adopted with VVVF door-motor which is light in weight and compact in structure to make door drive system run stably and efficiently, it could save energy and reduce the failure rate.

## 绿色节能, 智享未来

Green and energy saving,  
intelligently enjoy the future

### 低碳清洁

专用节能主机, 耗电量等同于一台普通冰箱, 相比于传统主机更低碳环保, 符合未来感生活方式, 且免润滑, 保证家居环境的清洁, 提升生活品质。

### Low-carbon cleaning

The power consumption of exclusive energy-saving traction machine is equal to an ordinary refrigerator. this traction machine is more environmentally friendly with less carbon compared with the traditional traction machine, which meets the lifestyle in the future. Besides, it is free of lubrication to ensure the cleanness of the living environment and improve the life quality.

### 节能照明

LED照明光源, 光线柔和舒适, 结合自动照明系统, 延长使用寿命, 节约能耗。

### Energy-saving lighting

LED lighting source has soft and comfortable light. Combined with an auto lighting system, the service life could be extended and the consumption could be reduced.

# 多重安全， 守护家人

Multiple security  
protect your families

## 红外光幕防护

由密集的红红外光幕在电梯门口形成无形的安全保护网，可检测任何进入探测区的人或物品，灵敏反应，保护家人安全进出。

## Infrared light curtain protection

A dense infrared light curtain at the gate of the elevator is formed to be an invisible safety protection network so as to detect anyone or anything entering into the detection area. There is a quick response to protect the safety of your families.

## 身份识别系统

可定制人脸识别/指纹识别/IC卡识别/语音识别等多种身份识别系统，智能识别家庭成员与访客，并为家庭成员设计专属呼梯方案，保障家人日常乘梯的安全性与家居空间的私密性。

## Identification system

A variety of identification systems such as face recognition, fingerprint recognition, IC card recognition, and voice recognition can be customized to intelligently identify family members and visitors, and design exclusive call plans for family members to ensure the safety of the family's daily elevator ride and the privacy of home space.

## 停电应急停靠

当家中突发停电时，电梯的紧急电源为电梯供电，使电梯缓慢移动至就近层站，开门放人。

## Elevator emergency rescue device

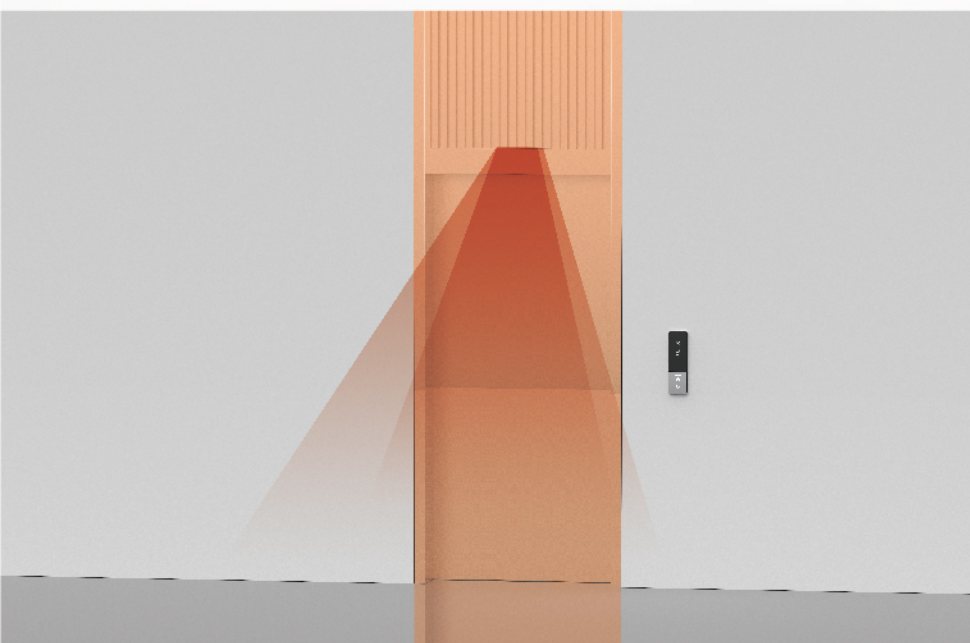

When there is a power cut in your home, the urgent power of the elevator would keep supply power for the elevator so that it could move to the near-floor station slowly to release people.

## 一键拨号装置

设计一键拨号按钮，当电梯发生故障时，可通过一键向家人、朋友或专业人员拨打求救电话，快速获得救援。

## One-touch dialing device

The one-touch dialing is designed in the elevator so that you could dial to families, friends or professional staff for rescue if there is a fault in the elevator to get a quick rescue.

# 空间优化, 美学呈现

*Optimized space and aesthetic presentation*

## 空间利用率最大化

高度简约的结构设计, 紧凑排布, 无(小)底坑, 小顶层, 满足更小的机房尺寸要求, 节省建筑空间及成本, 实现井道空间利用最优化。

## Maximized space utilization

Compact arrangement, without pit or with small pit, small top floor, all these highly minimalist structure design could meet the requirements of smaller machine room size; save construction space and cost, and achieve the optimization of shaft space utilization.

## 艺术美学设计

探索潮流风格趋势, 定制化轿厢装潢设计, 集功能性与美观性于一体, 为您打造融于家居空间的艺术美学轿厢, 以极美视觉体验, 突显生活质感。

## Artistic aesthetic design

Explore the tendency of fashion style, customized decoration design of elevator car integrated with function and beauty so as to build up an art aesthetics car in your home space. The quality of life is highlighted with the beautiful visual experience.

## 轿厢空间优化

通过结构设计节省井道空间, 最大程度减少电梯部件对家居装潢的影响, 并经过轿厢优化设计, 营造宽敞的轿厢空间和舒适的乘坐体验, 实现小井道、大轿厢。

## Elevator car space optimization

The shaft space is saved through structural design so as to greatly reduce the impact of elevators on housing decoration. Wide car space and comfortable elevator experience are built with elevator car optimization design to achieve the small shaft and big elevator car.

# 井道解决方案

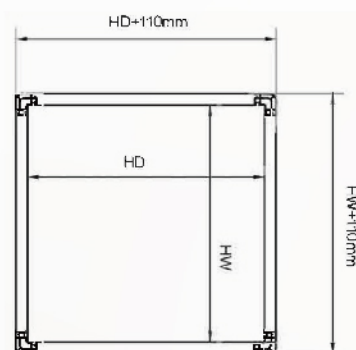

Well solution

## 55型-铝合金井架

立柱:100\*100  
横梁:65\*55mm  
玻璃安装方式:分体式盖板

### 产品特点

航空级铝合金材质、硬度强、重量轻、称重大;  
拼装式结构、安装方便、快捷;  
直角形立柱、外观简约大气;  
拆分式横梁,安装简单;  
玻璃内外都可以安装,可实现后期维护单独拆换。

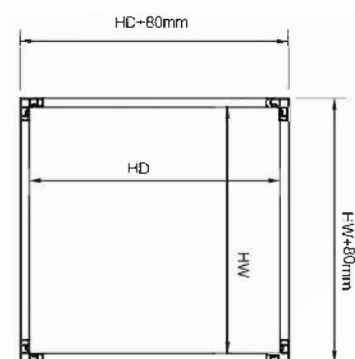

## 40型-铝合金井架

立柱:80\*80  
横梁:50\*40mm  
玻璃安装方式:相框结构

### 产品特点

航空级铝合金材质、硬度强、重量轻、称重大;  
拼装式结构、安装方便、快捷;  
直角形立柱、外观简约大气;  
拆分式横梁,安装简单;  
玻璃内外都可以安装,可实现后期维护单独拆换相框安装结构。

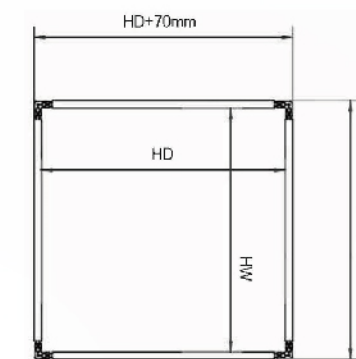

## 35型-铝合金井架

立柱:85\*85  
横梁:60\*35mm (选配:有槽 无槽)  
玻璃安装方式:相框结构

### 产品特点

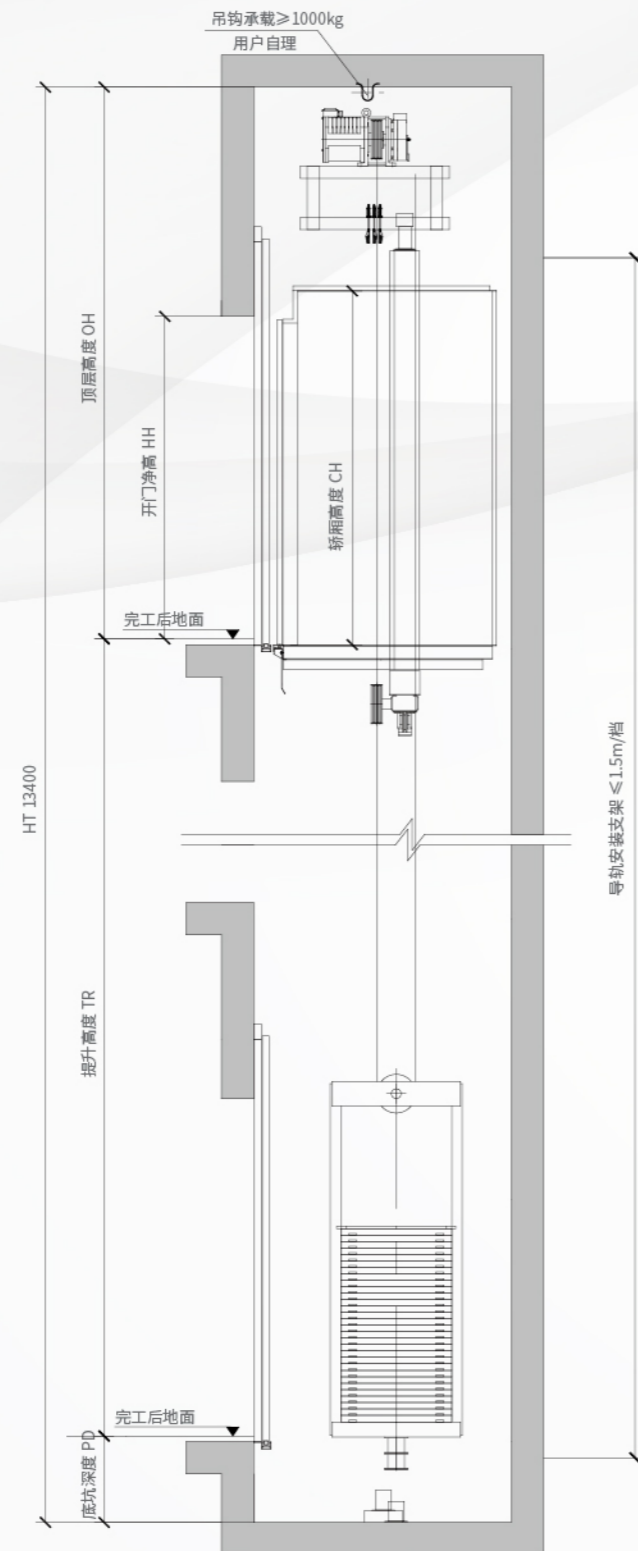

航空级铝合金材质、硬度强、重量轻、称重大;  
拼装式结构、安装方便、快捷;  
直角形立柱、外观简约大气;  
拆分式横梁,安装简单;  
玻璃内外都可以安装,可实现后期维护单独拆换相框安装结构。

### HS900-Z (自有井道)

额定载重量 (kg)	速度 (m/s)	轿厢尺寸 宽*深*高	开门尺寸 宽*高	开门方式	井道尺寸 宽*深	顶层高度 OH	底坑深度 PD
260	0.4	900*1100*2200	700*2000	旁开两扇门	1475*1450	2900	400
320	0.4	1000*1200*2200	700*2000	中分	1600*1450	2900	400
400	0.4	1200*1300*2200	800*2000	中分	1800*1500	2900	400

### HS900-L (铝合金井道)

额定载重量 (kg)	速度 (m/s)	轿厢尺寸 宽*深*高	开门尺寸 宽*高	开门方式	井道尺寸 宽*深	顶层高度 OH	底坑深度 PD
260	0.4	900*1100*2200	700*2000	旁开两扇门	1600*1550	2900	400
320	0.4	1000*1200*2200	700*2000	中分	1750*1600	2900	400
400	0.4	1200*1300*2200	800*2000	中分	1950*1700	2900	400

# 家用梯功能表

## Home ladder function table

### 基本运行功能

Basic operating functions

全集选控制	Full collective selective control
检修运行	Inspecting running
紧急电动运行	Emergency electrical recall operation
开门保持时间设定	Door open holding
本层厅外开门	Over hall door opening
错误按钮指令取消	Cancel the wrong calls
反向时自动取消指令	Automatically cancel the reverse calls
换站停靠	Landing at another floor
直接停靠	Stop directly
满载直驶	Full load bypass
待梯时轿内风扇,照明自动关闭	Light & fan energy-saving function
自动返基站	Automatic return to base station
重复关门	Close door repeatedly
自动修正楼层位置信号	Automatically correct the car location signal
待梯楼层任意设定	Standby floor setting freely
楼层显示任意设定	Floor display setting freely
服务楼层任意设定	Service floor setting freely
机房选层运行	Machine room operation travel
编码器错误自诊断	The self-diagnosis of encoder error
井道自学习	Shaft parameters auto-learning
应急照明	Emergency lighting
四方通话	Four parties calling
五方通话	Five parties calling
ARD停电应急救援	ARD emergency evacuation device

### 安全功能

Safety function

光幕保护	Light curtain protection
超载开门停驶	Open the door and stop moving for over-loading
轻故障自动就近层停靠	Light fault parking to the nearest floor
下行超速保护	Down-direction overspeed protection
上行超速保护	Up-direction overspeed protection
错误按钮指令取消	Cancel the wrong calls
运行方向逆转保护	Protection of reverse travel
减速开关异常保护	Protection of abnormal deceleration switch
防扒门保护	Prevent the door forced open
运行中门锁断开保护	Protection of door-lock disconnect when running
轿厢异常移动保护	Unintended car movement protection
制动器定期制动力检测	Brake periodic detection
接触器触点粘连保护	Contact inspection protection of contactor
抱闸监测开关保护	Brake check switch protection
一个层最大运行时间保护	Protection of maximum running time in one floor
安全回路故障保护	Protection of safety circuit fault
平层开关故障保护	Protection of leveling switch fault
主控CPU WDT通讯保护	Protection of CPU & WDT communication
CAN通讯故障保护	Protection of CAN communication fault
通讯干扰保护	Protection of communication interruption
故障按钮嵌入自诊断保护	Button conglutination judgment

### 附加功能

Optional function

CRT远程监控	CRT remote monitoring
贯通门控制	Through door control
语音报站	Voice announcement
背景音乐	Background music

## 安心服务, 幸福无忧

Reassured service for worry-free happiness

### 按需维保

摒弃传统的按周期维保方式, 而是根据物联网大数据记录电梯运行里程, 分析运行状况, 根据需求定制专属维保方案, 既减少打扰客户生活, 保护别墅住宅的私密性, 又保障电梯正常运行。

### Maintain according to demand

The traditional periodic maintenance had been abandoned. The running situation is analyzed with the elevator mileage recorded by the big data of the Internet of things. An exclusive maintenance scheme is customized according to demand, which not only reduces the interruption of the customer's life and protect the privacy of the villa house, but also guarantees the normal operation of the elevator.

### 智能物联网服务

采用智慧物联网系统, 实时监管电梯运行状态, 及时反馈数据, 故障提前预警, 确保售后服务无忧。

### Intelligent service of Internet of things

It is adopted with intelligent Internet of things system to have real-time monitoring of elevator operation status so as to have feedback of data in time and the pre-warning for fault, which ensures the worry-free after-sales service.

### 智能物联网系统 Smart IoT services
